

INCIGHT™ EDUCATION

Our Mission: Unlocking the Potential of People with Disabilities.

Incight's Education Program helps to empower students with disabilities through scholarship offerings, internships, curricula, and skill-building and educational events.

Scholar Match Program:

Incight partners with area colleges and universities in order to double the positive impact that we can have on students with disabilities attending college.

The Scholar Match Program exists to reduce the cost of education for students with disabilities by cultivating partner relationships with area colleges and universities that elect to match Incight's scholarship award amounts. Incight Scholars benefit from a reduced financial burden and in turn, partner colleges benefit from the continued enrollment of Incight Scholars.

Incight continues to expand the Scholar Match Program via partnerships with schools throughout Oregon. Depending on Scholar enrollment, partnerships can change from year to year.

Past Match Partners Include:

- Pacific University
- George Fox University
- Eastern Oregon
- University of Oregon
- Concordia University
- Portland Community College
- Southern Oregon University
- Oregon Institute of Technology
- Marylhurst University
- Oregon State University

Current Match Partners:

- Clackamas Community College
- Corban University
- Western Oregon University
- Linfield College
- Portland State University
- University of Portland

For more information about how to become a match partner, match amounts, how funds are disbursed, or for a copy of the agreement form, please contact the Education Program Coordinator. No membership fees or dues are required for participation.
