

# INCIGHT™ EDUCATION

*Great things are happening at Incight! Our Education department has exciting news as well as opportunities for students with disabilities!*

## Curriculum

In March of this year, our Pilot 2.0, Incightful Transitions Curriculum, entered classrooms. The

Transitions Curriculum Pilot 2.0 is designed to supplement lessons in the classroom and give teachers more tools to better prepare students with disabilities for post-secondary success.

Pilot 2.0 includes sixteen lessons built on the foundation of engagement, adaptability, and ease-of-use. The lessons are divided into three sections that prepare students with the essential skills for life after high school: Education, Employment, and Independence. The curriculum begins with a lesson to eliminate attitudinal restrictions that hinder students' potential through limiting beliefs.

Each lesson contains all of the necessary components to facilitate success in the classroom – including complete lesson plans, interactive modules, supplemental materials and activities, and student assessments.

Teachers all over Oregon and SW Washington have begun to use our curriculum to prepare their students for success after college. Teachers from across the state have described our curriculum as “Excellent”, “Relevant” and “Accessible”! We are thrilled to have partnered with school districts across the state to bring a new kind of curriculum to students and young adults with disabilities. Stay tuned for more information about our groundbreaking curriculum and exciting news on our next phase!

## Student Central

~ April 23rd 2015 at the Oregon Convention Center ~

Join us on April 23, 2015 for Student Central – an authentic experience for high school students with disabilities to learn the skills necessary to find meaningful employment. This event is facilitated in conjunction with the Incight Career Expo and is an opportunity for students to learn from other job seekers and employers. The topics covered include resume building, network, professional communication, and other job search skills. Students will then have an opportunity to practice these skills on the main floor of the Career Expo.

*For more information on either of these events please visit our website.*
